**Climate Control Group Showcases Industry-Leading HVAC Innovation at
AHR Expo 2025**
Booth Experience Focuses on “Great People Making Great Products”

Oklahoma City, Okla. (Feb. 7, 2025) – The Climate Control Group, Inc. (“Climate Control Group”), a NIBE Group Member, is set to showcase its latest HVAC innovations at the 2025 AHR Expo, taking place February 10–12, 2025, at the Orange County Convention Center in Orlando, FL. With a focus on great people making great products, Climate Control Group is featuring how it elevates the HVAC industry through advanced technology and sustainable solutions, in an immersive, interactive experience at booth #3927.

Climate Control Group is home to four powerhouse brands—ClimateMaster, International Environmental Corporation (IEC), ClimateCraft, and ClimaCool—delivering cutting-edge solutions for both commercial and residential HVAC applications. Through strategic investments in innovation, manufacturing and workforce development, Climate Control Group continues to lead the way in renewable energy solutions, geothermal and hydronic heating and cooling, and advanced air-handling technologies.

“Our success is built on a foundation of quality, innovation and an empowered workforce,” said Kevin McNamara, CEO of Climate Control Group. “At AHR 2025, we’re excited to highlight our breakthrough products and the great people behind them.”

Visitors to Climate Control Group’s booth (#3927) will experience firsthand how the company and its four subsidiaries’ manufacturing facilities are evolving to enhance innovation, testing, and talent development through interactive factory tours and expert-led presentations.

Climate Control Group In-Booth Presentations

Climate Control Group will host a series of expert-led in-booth presentations, providing insights into the latest advancements in HVAC technology, including:

Versatility Meets Custom Durability: Built to Last, Perfect for Retrofits and New Builds

- Monday, Feb. 10 at 11 am
- Tuesday, Feb. 11 at 4 pm

Scaling Efficiency: Geothermal Heat Pump Strategies for Large Commercial Projects

- Monday, Feb. 10 at 12 pm
- Tuesday, Feb. 11 at 2 pm

Capitalize on Retrofit Market Potential: CCG’s Blueprint for HVAC Retrofit Success

- Monday, Feb. 10 at 1 pm
- Tuesday, Feb. 11 at 11 am

Modular Thinking for a Sustainable Future: ClimaCool’s Contribution to Decarbonization and Flexibility in HVAC Systems

- Monday, Feb. 10 at 2 pm
- Tuesday, Feb. 11 at 12 pm

Building Better Together: Integrated HVAC Solutions from CCG to Optimize Efficiency, Reliability and Design Flexibility

- Monday, Feb. 10 at 3 pm
- Tuesday, Feb. 11 at 1 pm

Streamline Installation Costs: Low GWP Vertical Stack + Smart Wireless Service

- AHR Expo - Theater C - Monday, Feb. 10 at 10:45 am
- In-Booth Encore - Tuesday, Feb. 11 at 3 pm

Additional in-booth presentations include special guests sharing insights about ground source heat pumps, geothermal drilling and more.

Special Guest Presenter Eric Torykian, Executive Director of Mission Geo: Unearthing the Benefits of Ground Source Heat Pumps

- Monday, Feb. 10 at 4 pm

Boothside Chat with Special Guest Brock Yordy: Geothermal Drilling Unearthed

- Monday, Feb. 10 come and go from 12 pm to 3 pm

Spotlight on Innovation: 2025 AHR Expo Award Winner & Advanced Technologies

Climate Control Group's presence at AHR 2025 will feature award-winning solutions and breakthrough innovations, including:

- 2025 AHR Expo Innovation Award Winner: EnviroKIT – A kitted solution for quickly and easily replacing aging and failing fan coil components.
- ClimateMaster iGate2 – Remote diagnostics in the palm of your hand.
- ClimateMaster Rebate Center – Helping customers maximize savings on HVAC investments.

"This is the year our great employees own our success together," said McNamara. "We are incredibly proud of our team and our progress. To fully appreciate what we've built, you have to see it in person - presenting it virtually at AHR 2025 is just the beginning."
